

**Cross on the Rock Series
SURVEY 2008**

Races

1. This year we had 6 races in our series. Last year 5. The year before was 4. How many do you think would be good?
2. How many cross races did you do?
3. We would like the island series to start mid September and go to the last weekend in November. How long would you like to see the series go on the island?

Events and Schedule

1. Which was your favorite course and why from all the ones that have been held on the island?
2. Where would you like to see an event?
3. Do you like the format of our events with the 4 different start Times and 2 awards times at each event (with the exception of the island Championships)?
4. Do you prefer double race weekends or only 1 race per weekend?

Price

1. Our pricing is \$10 for Beginners. \$20 for GRMBA members and \$25 for non-GRMBA members. In your opinion is this good?

Prizes

1. Is it important to offer prizes at all the events for all the categories OR should we go deeper for the series overall and only do a few draw prizes at the events?
 2. What did you think about the prizing?
3. What do you think about offering cash for the women and men's Expert overall??

Categories

1. We changed the masters category to start at 35 last year. Eventually we would like to add a few more categories such as masters 45+ (or 50+) and a women's intermediate category but right now the numbers in these categories do not warrant it. Which categories do you think are needed and should be offered if we had enough people to race in them (this of course also depends on sponsorship and prizes)?
2. Any suggestions/ideas on how to attract more beginners to the races?
 3. This year the Expert category was smaller than normal...anyone know what happened to all these guys?

Any additional comments or suggestions:
