Prizes

1. Is it important to offer prizes at all the events for all the categories OR should we go deeper for the series overall and only do a few draw prizes at the events?

2. What do you think about offering cash for the open women and men's Expert overall like we did for the double cross weekend.

Categories

1. The categories seem to be getting stronger and stronger. We would LOVE to add a women's intermediate category.....but we need a larger field of women.....HOW do we get more women 1st so we can add an intermediate category?

2. Should Masters Men be 40 years and older?

3. Any suggestions/ideas on we can attract more beginners to the races?

What did you like best about our cross series:

Any suggestions to improve our races, courses (don't say fire pits at every race) and series:

Of note: This year the Expert category was bigger than last year averaging 19 racers per race vs 14. Mostly in part to no conflicting BC cups.....

Suggested: Also note that I had a suggestion that the points are different from 15th to 20th etc. so that guys that are in the back half of the field can still battle with their friends for overall without all being stuck at 2 points a race....I will change that for next year for sure.

Any additional comments or suggestions:
